# 12" - 15" High Wall Cabinets

## Wood Species

2

**Maple:** a light colored hardwood, Maple has a close, fine, uniform texture that is generally straight-grained. This is a very durable hardwood and will take any color stain or paint well.

**Oak:** has a reddish cast and is a very hard wood with a mostly straight open grain. This is an extremely durable, great wear-resistance hardwood that stains well to a beautiful finish.

**Cherry:** has beautiful reddish brown to deep red color with lighter streaks of sapwood. Cherry has a fine uniform, straight grain, satiny smooth texture, the beauty of this hardwood and accompanying even grain has been a favorite choice of customers for centuries.

Door Styles

## Creating a Kitchen

✧ **1. Select your cabinet grade.** Choose from Premium, Deluxe or Select grades for more style and quality choices.

Select icon

Deluxe icon

Premium icon

✧ **2. Choose your style.** Select the door and drawer style you prefer for the look you want. Options include: Square, Arch, and Cathedral in Flat Panel, Raised Panel and Beadboard styles.

✧ **3. Layout your kitchen.** Make your space beautiful and functional with base, wall, pantry, corner and utility cabinets. Plan the best arrangement for your lifestyle.

✧ **4. Select an island.** Solid wood kitchen islands come in six designer styles for a welcome addition to your kitchen for work space, storage and seating.

✧ **5. Add glass.** Enhance your cabinets with glass to show off your cherished objects.

✧ **6. Add space saving storage and accessories.** Convenient accessories make your working kitchen even better.

✧ **7. Select a wood species.** See the wood species descriptions below and choose from Maple, Oak or Cherry.

✧ **8. Select the finish.** Warm stains, paints and specialty finishes add to the personality of your kitchen. Choose from our selection of 26 finishes including stain, paint & glazes or get your cabinets unfinished to customize yourself.

## Cabinet Grades

**Woodcraft Select:**  
Our highest quality all wood cabinets. Solid wood face frames and doors.

**Woodcraft Deluxe:**  
Quality furniture board cabinets with plywood sides. Solid wood face frames and doors.

**Woodcraft Premium:**  
Quality furniture board case cabinets. Solid wood face frames and doors.

The ultimate source for quality, American made, semi-custom cabinets and furniture.

Pride and experience go into every Woodcraft cabinet.

Since 1984, Woodcraft Kitchen and Bath has produced an impressive selection of semi-custom Kitchen & Bath Cabinetry and a full line of “furniture for every room in the home and office.”

Every cabinet has been designed and engineered to support Woodcraft Kitchen and Bath’s quality standards. You can be sure that every Kitchen and Bath cabinet will bring years of pride in ownership.

Woodcraft cabinets are available in Woodcraft Premium, Woodcraft Deluxe, and Woodcraft Select grades, an impressive 26 finishes and 13 door & drawer styles. Numerous accessories and the ability to modify cabinet sizes create unlimited possibilities for your kitchen and bathrooms.

All Woodcraft Kitchen and Bath cabinets are covered by our Lifetime Limited Warranty.

Woodcraft Kitchen and Bath  
is a proud member of

Manufactured in the U.S.A.

## Environmentally Responsible

- Our real wood construction reveals the classic beauty of responsibly harvested premium grade maple, oak and cherry. Woodcraft Kitchen and Bath is committed to using suppliers that share our values. Our vendors are certified by the Forest Stewardship Council (FSC) for their controlled harvesting of wood products from managed forests, adhering to strict environmental standards in accordance with the principles and criteria of the FSC. The wood waste produced is minimal as excess wood chips and sawdust are utilized by local farms as animal bedding.
- State of the art finishing system utilizes a high solid conversion varnish that emits very low voc's. Because of the finishes high build properties, a high quality finish is produced with fewer steps in the finishing process.
- Woodcraft Kitchen and Bath's goal is to be a resource and partner with you in making our environment a safe and healthy place to live. The longevity and durability of our furniture guarantees it will last for generations to come.

## Limited Lifetime Warranty

**Woodcraft Kitchen and Bath warrants to the original consumer purchaser that our cabinetry will be free from defects in material and workmanship under normal use for the lifetime of the original purchaser.** This warranty only applies to Woodcraft Kitchen and Bath cabinets or related products purchased through a current authorized Woodcraft Kitchen and Bath dealer. This warranty is in lieu of all other implied or expressed warranties.

Woodcraft Kitchen and Bath may elect to repair or replace any defective Woodcraft Kitchen and Bath product covered by our warranty. Our warranty does not cover defects caused by misuse, abuse, negligence, alterations, environmental conditions, exposure to extremes in temperature or humidity, improper installation, storage and handling, shipping damage caused by the freight company; nor any labor expenses or incidental or consequential damages. Our warranty does not cover natural variations in wood including distinctive grain patterns, variations in color and variations in texture. This warranty does not apply to unfinished products.

Woodcraft Kitchen and Bath may change design, specifications and materials as conditions require and improvements are developed, but we have no obligation to incorporate such changes into products we previously manufactured. Woodcraft Kitchen and Bath reserves the right to make material and specification changes to Woodcraft Kitchen and Bath products without prior notification. Material and specification changes are not valid reasons for a warranty claim.

To file a warranty claim, first contact your current authorized Woodcraft kitchen and bath cabinet dealer who will arrange for inspection of the cabinet. An original dated sales receipt as proof of purchase is required to obtain benefits from this warranty. Only written warranty claims will be accepted.

### Food Storage:

- Refrigerator
- Freezer
- Pantry

*It is recommend that your food storage is as close to the kitchen entry as possible for efficient unpacking and less distance to lug heavy groceries.*

### Cooking:

- Range
- Ovens
- Cookware

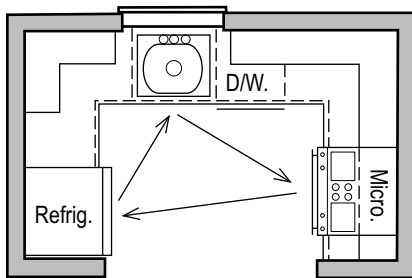

*Your cooking components should be near each other; by having your cookware close at hand to your range & oven you save time in meal prep.*

### Clean Up:

- Sink
- Dishwasher
- Dish Storage

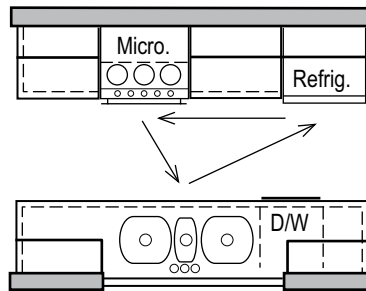

*Place your dishwasher near your sink and disposal, then dirty dishes can be tackled easily.*

## Some Common Kitchen Layouts

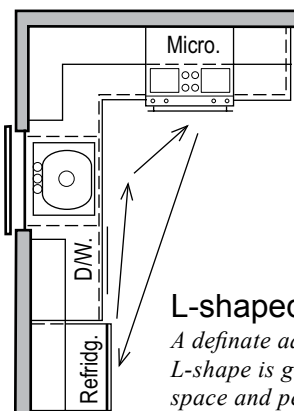

### U-shaped

*If you could use more space consider a U-shape. It is perfect for one or more cooks.*

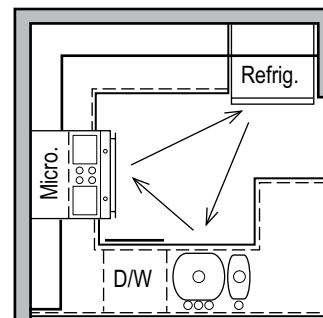

### Galley

*A galley is an efficient workspace for a single cook.*

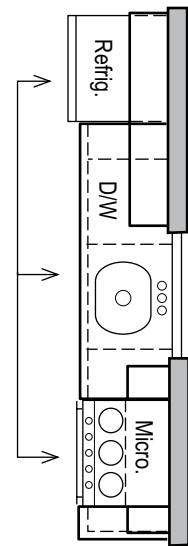

### L-shaped

*A definite advantage of the L-shape is generous counter space and people can come in and out without entering your work area.*

### G-shaped

*A modification of the U-shape, the G adds more cabinets and a potential fourth wall.*

### Single Wall

*A single wall layout is a necessity in smaller homes and apartments where space is limited.*

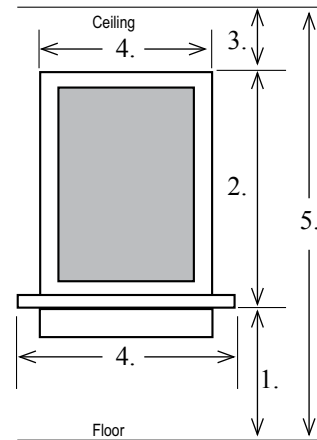

- Make a sketch of your room; mark all doors, windows, electrical outlets and permanent fixtures.
- Measure in inches not feet.
- Measure openings: doors and windows from the outside trim edge.
- Indicate which way the doors swing. 
- Once you have accurate measurements transfer it to grid paper.

## Walls

1. Measure the full length of the wall from the left corner out.
2. Measure segments: From the left measure to the outer edge of the first opening (*door or window*).
3. Measure across the opening from outside trim edge to outside trim edge.
4. Measure from the outside trim edge of that opening to the next opening or the end of the wall.

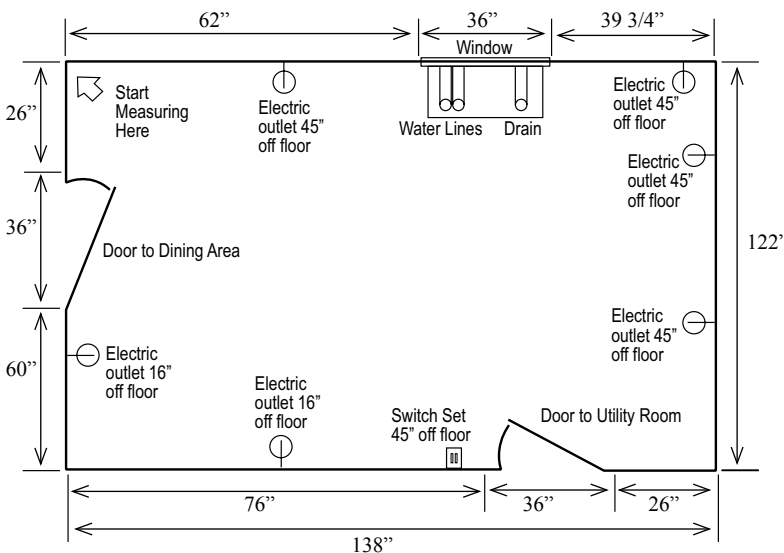

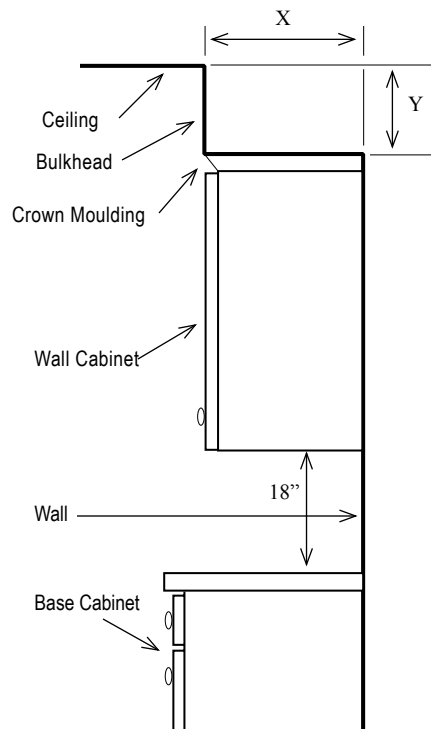

## Windows:

1. Measure from floor to window sill.
2. Measure from window sill to top of window.
3. Measure from top of the window to ceiling
4. Measure the width of the window.

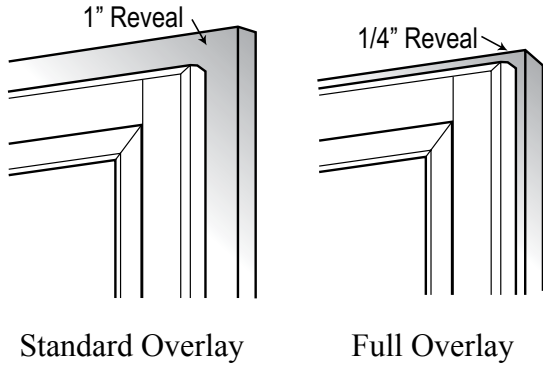

## Details:

1. Make a list of all kitchen appliances
2. Measure the width, height and depth of all relevant appliances.
3. Measure construction details such as bulkheads, crown mouldings etc.

# Door Hinges & Door Overlays

*Note: Cabinet face frame rails and stiles are 1 1/2" wide.*

Cope and stick construction: the joints are machined to interlock with a tongue and groove, glued, clamped and pin nailed during assembly.

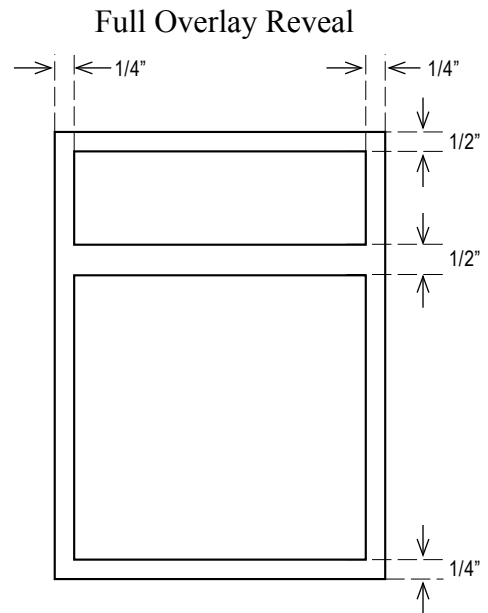

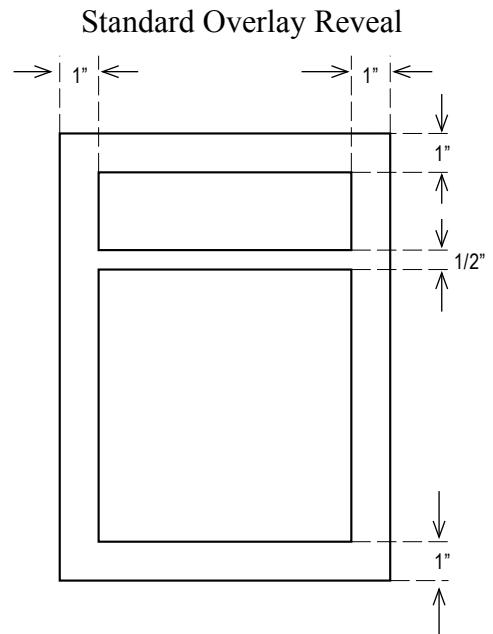

Mitered door construction: has a 45 degree angle joint that is glued, clamped and secured with metal fasteners.

The panels are floating panels held in place with rubber spacing balls to absorb any expansion and contraction and keep the panel in place. All of our raised panels and frames are solid wood; flat panels are plywood.

European fully concealed, six-way adjustable hinges

Optional soft close hinge. (SC)

Overlay Options	Hinge Type Options	Drawer Glide Options
Standard 1/2"	European (EU)	Full Extension (F)
Full 1 1/4"	Euro Soft Close (SC)	Undermount Soft Close (SC)

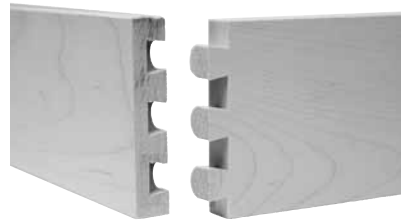

## Drawer Construction

The drawer boxes are English dovetailed on all four corners, 1/4" plywood bottom panel is glued in place and blind nailed to create a strong square drawer box that will endure the test of time.

Drawer face is attached to the front of the box using four panhead screws.

Optional Drawer  
1/2" Thick  
Dovetailed  
Solid Hardwood

## Wall Cabinets

- Standard wall cabinets come in 12", 15", 18", 21", 24", 27", 30", 36" and 42" heights with a 12" or 15" depth.
- 12" 15" and 18" high wall cabinets have no interior shelves
- 21", 24", and 27" high wall cabinets have one adjustable shelf.
- 30" and 36" high cabinets have two adjustable shelves.
- 42" high cabinets have three adjustable shelves.
- Max. height for wall cabinets: 48"
- Smallest door size for Cathedral/ Arch doors is 9" w X 12" h
- Cabinets less than 12" wide have a solid door (raised, flat panel, cathedral and arch not available).

## Vanity Cabinets

- Standard vanities are 31" high and 21" deep, have false drawer fronts, bottom shelf. Tall vanities are 34 1/2" high.
- Narrow vanities are 31" or 34 1/2" high and 18" deep, have false drawer fronts, one bottom shelf.
- Three drawer vanities are 31" or 34 1/2" high and 21" deep, have one 4" and two 6" drawers. (Hampshire is 21 3/4" deep because of base trim).
- Combination vanities are 31" or 34 1/2" high and 21" deep.
- Toe kick cutout: 4 1/2" high and 3" deep.

## Base Cabinets

- Standard base cabinets are 34 1/2" high and 24" deep, have working drawers, one base shelf and one adjustable half-shelf.
- Sink bases have one base shelf and false drawer fronts.
- Sink fronts are fronts only, with a toe kick attached.
- Three-drawer base cabinets have one 4" and two 8" high drawers.
- Min. cabinet depth for drawers: 12"
- Cabinets less than 12" wide have a solid door (raised, flat panel, cathedral and arch not available).
- Toe kick cutout: 4 1/2" high and 3" deep.

## Helpful Ordering Information

### Ordering Wall Cabinets

The first letters of cabinet model numbers refer to the group of cabinet-type ("W" for wall).

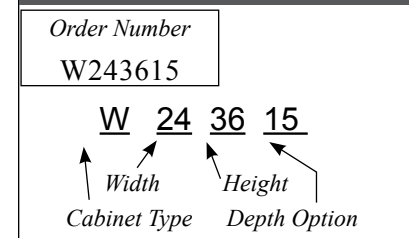

• The numbers after the letters refer to the width of the cabinet. In the example below, the "24" indicates that the actual width of the cabinet is 24".

• The second set of numbers refers to the cabinet height. In the example, the "36" indicates that the actual height of the cabinet is 36 inches.

• If the cabinet has a non-standard depth (*standard depth is 12"*), the next two digits reflect the depth. In the example, the "15" indicates that the actual depth of the cabinet is 15 inches. If a cabinet is the standard 12" depth, this number is not required.

- The letter following the height or the depth option is used for the wood species. "M" is the letter code for Maple, "K" is the letter code for Oak, "C" is the letter code for Cherry.

#### Wall Cabinet Order Number

### Ordering Base & Vanity Cabinets

Letters at the beginning of cabinet model numbers, such as "B", refer to the group of cabinet-type

("B" for Base, "V" for vanity, "BLS" Base Lazy Susan, etc.)

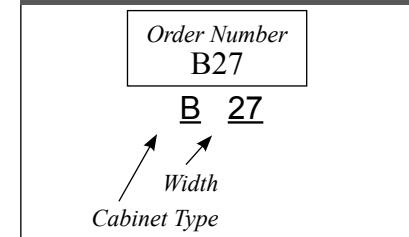

• The numbers after the letters refer to the width of the cabinet.

• In the order number example below, the "27" indicates that the actual width of the cabinet is 27".

• The letter following the width is used for the wood species.

- "M" is the letter code for Maple, "K" is the letter code for Oak, "C" is the letter code for Cherry.

#### Base & Vanity Order Number

### Ordering Blind Cabinets

• For Blind Wall cabinets order 0"- 3" smaller than wall space as it can be pulled 0"-3" from the wall

• For Blind Base cabinets order 6"- 9" smaller than wall space as it can be pulled 6"-9" from the wall.
